

Bird Netting

AMAZON CURVED CANOPY CASE STUDY

BENEFITS

- Stops Nesting
- Blocks Perching
- Prevents Flocks from Congregating
- Stops Birds from Multiplying

SUMMARY

The goal of this job was to exclude birds from nesting or roosting in the rafters of a curved, transparent canopy at an Amazon complex.

AviAway installed bird netting on the underside side of the canopy. This solution was low-visibility and stopped pest birds from being able to nest.

AVIAWAY

AviAway is a full-service bird control installation company. Call us today at 844-247-3373 to set up a free bird control consultation.
