

Bird Netting

BRIDGE JOB CASE STUDY

BENEFITS

- Stops Nesting
- Blocks Perching
- Prevents Flocks from Congregating
- Stops Birds from Multiplying

SUMMARY

The objective of the job was to exclude birds from a busy highway bridge underpass. Birds were perching and building nests in the rafters and around the sides of the bridge.

AviAway installed bird netting in the rafters and bird wire and bird spikes around the sides of the bridge to permanently exclude birds from nesting or roosting.

AVIAWAY

AviAway is a full-service bird control installation company. Call us today at 844-247-3373 to set up a free bird control consultation.
